

Client Testimonials

We used Steve Hill Associates to help our company convert its QMS to meet the requirements of ISO 9001:2000. In doing so a lot of bureaucracy and unnecessary tasks were removed from the system and procedures and policies were simplified making the QMS far more workable. Since then we have retained Steve's services for internal audits and QMS updating. His efforts have ensured our QMS keeps pace as the business evolves and that certification body surveillance visits pass without concern. We would recommend him to other companies without question.

Shaun Sheppard, Managing Director, Otto Kampf Ltd, Wimborne, www.ottokampf.co.uk

We have used Steve Hill Associates since 1998 to initially prepare our ISO 9001 quality management system and since then to provide us with support such as internal audits and quality management system upgrades e.g. ISO 9001:2000, ISO 9001:2008. Steve's commonsense, down to earth style has made him very easy to work with over the years. His extensive knowledge and experience has ensured our quality management system benefits our business whilst being straightforward and uncomplicated. We would not hesitate to recommend him to other companies looking for someone to provide his type of service.
